

OUR FUNDAMENTAL HEALTH CARE PROBLEM: RISING COSTS

(Mr. PAULSEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAULSEN. Mr. Speaker, when the health care bill was moving through Congress, I repeatedly made the arguments that the legislation was flawed because it failed to fundamentally address the problem with our current health care system—rising costs. Well, now guess what? A new analysis just put out by the Centers for Medicare & Medicaid Services confirms that disturbing fact. According to CMS, the new health care law will actually increase our Nation's health care costs rather than decrease them.

Here are some of the staggering numbers: Health care spending is projected to increase by \$311 billion, and health care will now increase to 21 percent of our gross domestic product by 2019. So costs are going up, not down.

These numbers are alarming, and they're further proof that the health care bill missed the mark. Real reform would have lowered health care costs for individuals, for families, and for small businesses. Unfortunately, the partisan bill that was signed into law has failed to address this great need for our constituents.

HEALTH CARE FOR AMERICANS

(Mr. MOORE of Kansas asked and was given permission to address the House for 1 minute.)

Mr. MOORE of Kansas. Congress should have passed something on health care reform 40 years ago. We can't change what didn't happen for 40 years. But this year we had an opportunity to do something, and Congress finally did it.

When people in our country get sick and they don't have health insurance, they stay home, they stay home, they stay home until they're deathly ill. Then they go to the emergency room where they get the most expensive kind of health care there is in our country, and we all end up paying for it. We can and should do better.

We did better this year by passing health care reform for our people and our country. The Congressional Budget Office, CBO, says this will end up saving money on health care for people in our country. They are a nonpartisan entity that provides reliable information to both sides, Republicans and Democrats, and they're saying we can save money by this. We will do that.

We did the right thing for our people and our country by passing health care reform.

WE JUST BROKE HEALTH CARE IN AMERICA

(Mr. SHIMKUS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SHIMKUS. Mr. Speaker, President Obama stated on February 7, 2010, "If we can start bending the cost curve on health care, that's the most important thing we can do to deal with the deficits long term." Well, we always agreed that he was bending the cost curve. But our position was that it wasn't being bent down; it was being bent up.

The chief actuary of CMS, Mr. Foster's, report supports this and states that health care costs will accelerate by over \$300 billion because of this bill. The health reform law will not extend the life of our entitlement programs, because severe cuts to the programs are used not to strengthen Medicare but, rather, to finance other outlays. And Medicare cuts could lead to providers ending their participation in the program.

This is not Republicans. This is the chief actuary of CMS who is saying this bill is a dog, and we'd better redo it because it's going to raise costs and decrease benefits.

There is an old saying. If you broke it, you have to keep it. We just broke health care in America.

MEDICAL CARE FOR WOMEN

(Mrs. DAVIS of California asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. DAVIS of California. Mr. Speaker, sometimes it takes a woman speaking up for other women to make unfair and inappropriate health care practices a thing of the past.

Last June, I introduced the Women's Obstetrician and Gynecologist Medical Access Now Act, the WOMAN Act, to ensure that every woman has direct access to her OB/GYN. As a State assembly member, I offered the law allowing women direct access to their OB/GYN in California. Unfortunately, many women have not had that access. But I'm happy to say that similar provisions were included in the final health care package.

Patients, employees, primary care physicians, and health plan providers all save money and time if women are allowed direct access to their OB/GYNs. Across the Nation, women will no longer have to contend with the gatekeeper system that can prevent or delay lifesaving care.

Women should not need a permission slip to receive OB/GYN care, no questions asked.

HEALTH CARE FOR MEDICAID RECIPIENTS

(Mr. CASSIDY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CASSIDY. Mr. Speaker, it's always fun to listen to the debate because clearly both sides are saying the same thing but disagreeing to it. I am actually referencing some of the things we're speaking of.

We are told that the health care bill is going to create jobs in addition to its primary goal of increasing access to quality care at an affordable price. Now, a component of this is Medicaid, insuring 21 million people across the Nation, a combined Federal-State program where the State pays part, the Feds pay part. The problem is that Medicaid is not providing access to quality care at an affordable price.

There were two articles from the New York Times recently. One speaks of how people with Medicaid cannot get in to see a physician. They have to go to the emergency room because physicians don't see Medicaid patients because it pays so little and it has so much hassle. The other is about how a woman with cancer in Michigan cannot find a physician—she also has Medicaid—because the problem is it pays so little, has so much hassle, all the other things we expect in a bureaucracy. And lastly, regarding cost, despite paying less so it doesn't give access to quality care, according to articles in Politico, it's going to increase the deficit by \$1 billion for States like California.

GOOD NEWS ABOUT MEDICARE AND HEALTH CARE

(Ms. WASSERMAN SCHULTZ asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. WASSERMAN SCHULTZ. Mr. Speaker, I have some excellent news to share. Just last week, the CMS' independent actuary released an analysis of the health care reform legislation that we passed last month here in this Chamber. Their report shows that we are strengthening Medicare.

Indeed, according to the Office of the Actuary, the Affordable Care Act will help extend the life of the Medicare Trust Fund by an additional 12 years to 2029, compared to 2017 today. It closes the prescription drug doughnut hole by 2020, with an immediate rebate this year of \$250 and a 50-percent discount on brand-name drugs next year. It lowers annual premiums by nearly \$200 per beneficiary. It lowers annual average coinsurance by over \$200 per beneficiary, and it provides preventive wellness care visits for free.

When we passed health care reform, Democrats stood up for seniors by strengthening Medicare and closing the prescription drug doughnut hole that was wide open and would be left wide open under the Republicans' plan. Under their radical plan to repeal health care, we will move in the wrong direction.

HEALTH CARE REFORM

(Mr. WESTMORELAND asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WESTMORELAND. Mr. Speaker, last week the Centers for Medicare & Medicaid Services confirmed what we
